Let me know if that doesn't work. I tested it and it works in all the DVD players I tried.

If there is a particular document that you don't have that you see on the DVD just drop me a line and I'll send you a pdf version by email.

John:

Your August 28th Letter contained a CD Rom which was to provide medical and technical information. The disk was blank. Could you either send a new disk or send the material by email.

Thanks and regards,
Bob
